Organic 

***NOTES:** These are general prices from the Southeast which will vary by area and should only be used as a reference point when shopping. This list does not take into account seasonal and any special sales these stores offer each week. All five stores (especially Target) offer significant sales as well as coupons on many of these items. To find weekly updates on these sales visit:

https://passionatepennypincher.com/category/store_deals/

Several items and brands weren't identical, but we wanted to include the information and brand names to help you compare before heading out to the store.

"Count" in the right-hand column refers to the number of items included when you purchase certain groceries, especially on larger-sized packages. For example, at Sam's and Costco, the cooking spray comes in a 2-count package.

Our local Costco only carries organic jelly and syrup as well as cage-free eggs, so we included those prices in the list. If your store carries both organic and non-organic options, the prices at Aldi and Sam's will be more comparable to Costco's. Do note that the quality at each of these stores may vary (especially on produce).

The Passionate Penny Pincher team hopes this gives you a baseline to determine where to find the best price on the items you need every time you shop.
